Fastcase is having issues. If you are using Fastcase 6 you will get the following error.

**Server Error in '/Research' Application.**

*Unexpected character encountered while parsing value: <. Path '', line 0, position 0.*

**Description:** An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

**Exception Details:** Newtonsoft.Json.JsonReaderException: Unexpected character encountered while parsing value: <. Path '', line 0, position 0.

**Source Error:**

An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.

If you switch to Fastcase 7 you will be able to search, but is currently very slow.

Fastcase is aware of the problem and they are currently working to remedy the issue.
